PROFESSIONAL SUMMARY

A practice-oriented, 2nd-year Computer Science BSc student with an intensive 1-year Full-stack development training. I have 1.5 years of international work experience from Amsterdam, which provided me with confident professional English language skills and outstanding work ethic. My passion is AI-based workflow automation and building intelligent systems. I am currently seeking my mandatory 320-hour professional internship.

EXPERIENCE

Full-Stack & AI Automation Developer (Freelance · Remote) | 2023 – Present

- End-to-end web application development (React, Node.js, C#) and cloud-based deployment (Vercel, Docker).
- Design of custom workflow automation solutions and intelligent agent systems (Python, LLM).
- Management of relational and NoSQL databases, implementation of API integrations.

Menzies Aviation (Ramp Agent) | Amsterdam, Schiphol | 2021 – 2022

- Disciplined work under high pressure, daily professional English communication.

EDUCATION

Computer Science (BSc) | Tokaj-Hegyalja University | 2024 – Present

Full-Stack Software Developer | Codecool | 2022 – 2023 (1-year intensive training).

TECHNICAL SKILLS

- Programming: JS, TS, React, C# (ASP.NET), Java (Spring), Python.
- DevOps & Cloud: Vercel, Docker, CI/CD, Azure, Oracle Cloud.
- Tools: Git, Agile/Scrum, AI-assisted development, API integration.
- Systems: Windows/Linux, network administration, troubleshooting.

LANGUAGES & OTHER

- Languages: Hungarian (Native), English (Active, B2 + international work experience), Slovak (C1).
- Interests: Weightlifting (8 years – discipline and perseverance), Tech automation.
